SPECIAL EDUCATION DETERMINATION

Each year, districts in Ohio receive a rating evaluating the performance of special education programs, known as the Special Education Rating. The Ohio Department of Education calculates this rating using the final data submitted through the Education Management Information System (EMIS). The compilation of data results in one of four possible ratings: *Meets Requirements*, *Needs Assistance*, *Needs Intervention* or *Needs Substantial Intervention*.

Marion Local School District's 2019 Special Education Rating is *Meets Requirements*.

The district rating evaluates the implementation of federal requirements, also called compliance measures, as well as results for students with disabilities. The primary basis of this rating is the final special education program data your district submitted through EMIS for the **2017-2018** school year.

Principals: The month of October is national principal appreciation month. Thank you Mr. Goodwin, Mr. Wilker, and Ms. DeMange for everything you do and the countless number of hours you spend making Marion Local a great educational environment for our students to learn.
